

Greater North Carolina Digestive Health Review Course

Description:

This is a one day **virtual** course open to all GI staff. This is a fast paced GI review course for nurses planning to take the CGRN exam or any GI staff interested in learning GI anatomy, physiology, procedures and testing information. This course covers the SGNA core curriculum and provides RNs preparing to take the CGRN exam with valuable information to promote success.

Who should attend?

Any nurse preparing for the CGRN exam and any GI staff seeking education about GI anatomy, physiology, disease processes, procedures, and testing.

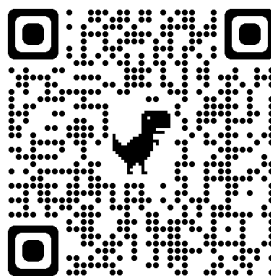

How to prepare for the course?

For RNs preparing for the exam: purchase or borrow the SGNA Core Curriculum 5 or 6. Course handouts will be emailed to all registered staff one week before the first class. Additional supplies: Pencils, Hi-lighters, paper, post-it notes

Course Registration (online only):
